MISSION

The Agape Community Health Clinic was established to develop and maintain primary health care in Washington and surrounding areas for all residents desiring those services and especially for those who have limited access to medical care.

Agape will provide primary medical care, basic laboratory services, case management, eligibility assistance and pastoral counseling. We have received special funds that will allow us to provide services for co-payments ranging from \$5.00 - \$20.00 to those that are 200% or less, of poverty guidelines and that meet program requirements. Please call our office to find out how to qualify.

At Agape, the care team is lead by two Medical Doctors (MD), Physician's Assistant (PA) and a Family Nurse Practitioner (FNP). We are also staffed with Medical Assistants (MOA) and Spanish Interpreting services are available to our clients.

ADDITIONAL GOALS & SERVICES

The Agape Community Health Clinic will strive to meet the needs of all residents of Beaufort and surrounding areas by treating the entire individual.

We have a Spanish Interpreter available for our multi-cultural population. We have literature, signs, and MAP applications available in Spanish.

We also participate in the State Immunization Program.

We are networking with the entire health care community to maintain a referral base of specialists.

We have implemented a Continued Quality Improvement Program to assure services provided meet high medical standards and are accessible, affordable and efficient.
